SDG's

DNA Tracing Solution

Expected benefits and impact for the stakeholders involved

Enhanced visibility of compliance with sustainability requirements by industry actors/partners along the entire value chain

Enhanced traceability of the social/environmental/ethical attributes of product(s)/materials along the value chain; for example, for origin, quality, sustainability performance, and compliance with health and safety requirements for consumers and workers

Enhanced environmental and socially responsible consumption and production, and circularity of the value chain, that may be relevant to and inspire other countries and industry actors/partners

Creating and implementation of planet-centric business model

Stakeholders involved

Business and industry associations

Non-governmental organizations (NGOs)

Scientific and technological community

Workers and trade unions

How has this UNECE-UN/CEFACT Call to Action contributed to strategic engagement and/or public awareness in support of your commitment?

No support for our business as we already prototyped various track-and trace solutions. But it is a great initiative to raise awareness among fashion business. It also helps to add pressure on companies to act and adapt their businesses to more sustainable practices without greenwashing.
