

UZBEKISTAN PERFECT TEXTILE CHAIN “FROM COTTON FIELD TO CONSUMERS SHELF”

PROGRESS IN TRACEABILITY & TRANSPARANCY, SUSTAINABILITY, AND CIRCULARITY:

TRACEABILITY

Introduction of unique Cotton - Cluster system in 2017 - The production cycle begins from cotton-growing and finishes with ready-made garments under one “roof” providing high rate of TT.

TRANSPARANCY

International standards and certification obtained by companies: OEKO-TEX (45), BSCI (12), GOTS (6), SEDEX (7), ISO (+1100)

SUSTAINABILITY

Industry 4.0, digitalization, industry specific platforms
Automation of resource planning and enterprise management based on ERP systems, artificial intelligence

CIRCULARITY

- Regenerated cotton
- Pre-consumer waste recycling (40%) – wall decorations, gloves, home textile filler etc.
- Innovations in water recycling - 3 companies reaching 95%

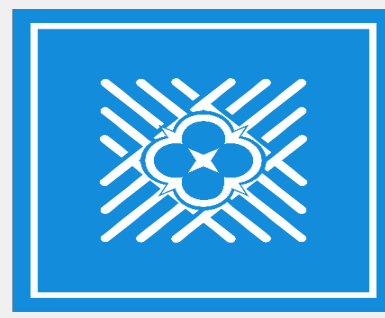

1050+

Vulnerable workers in the industry;
(Preferences available)

110+

Trainings for small actors
(micro firms, fashion studio owners)
