Description:

The ICS audits public search - Factories audited through ICS framework (including social and environmental audits) are invited by the ICS Members Brands and Retailers to publish in Sustainability Map their identification and information about ICS last audit performed including the audit date, the audit category, the audit type and the announce type. The process is organized step by step in order to gather the agreement from the factories for the public communication and in order to build publicly the network of ICS members' subcontractors. ICS methodology and requirements are available on ICS website : <https://ics-asso.org/> .

Update to the data can take up to 24 hours.

With a mission of providing very high quality knit apparel to the international market , Knit Concern Group emerged in 1990 and has started manufacturing and exporting 1992.

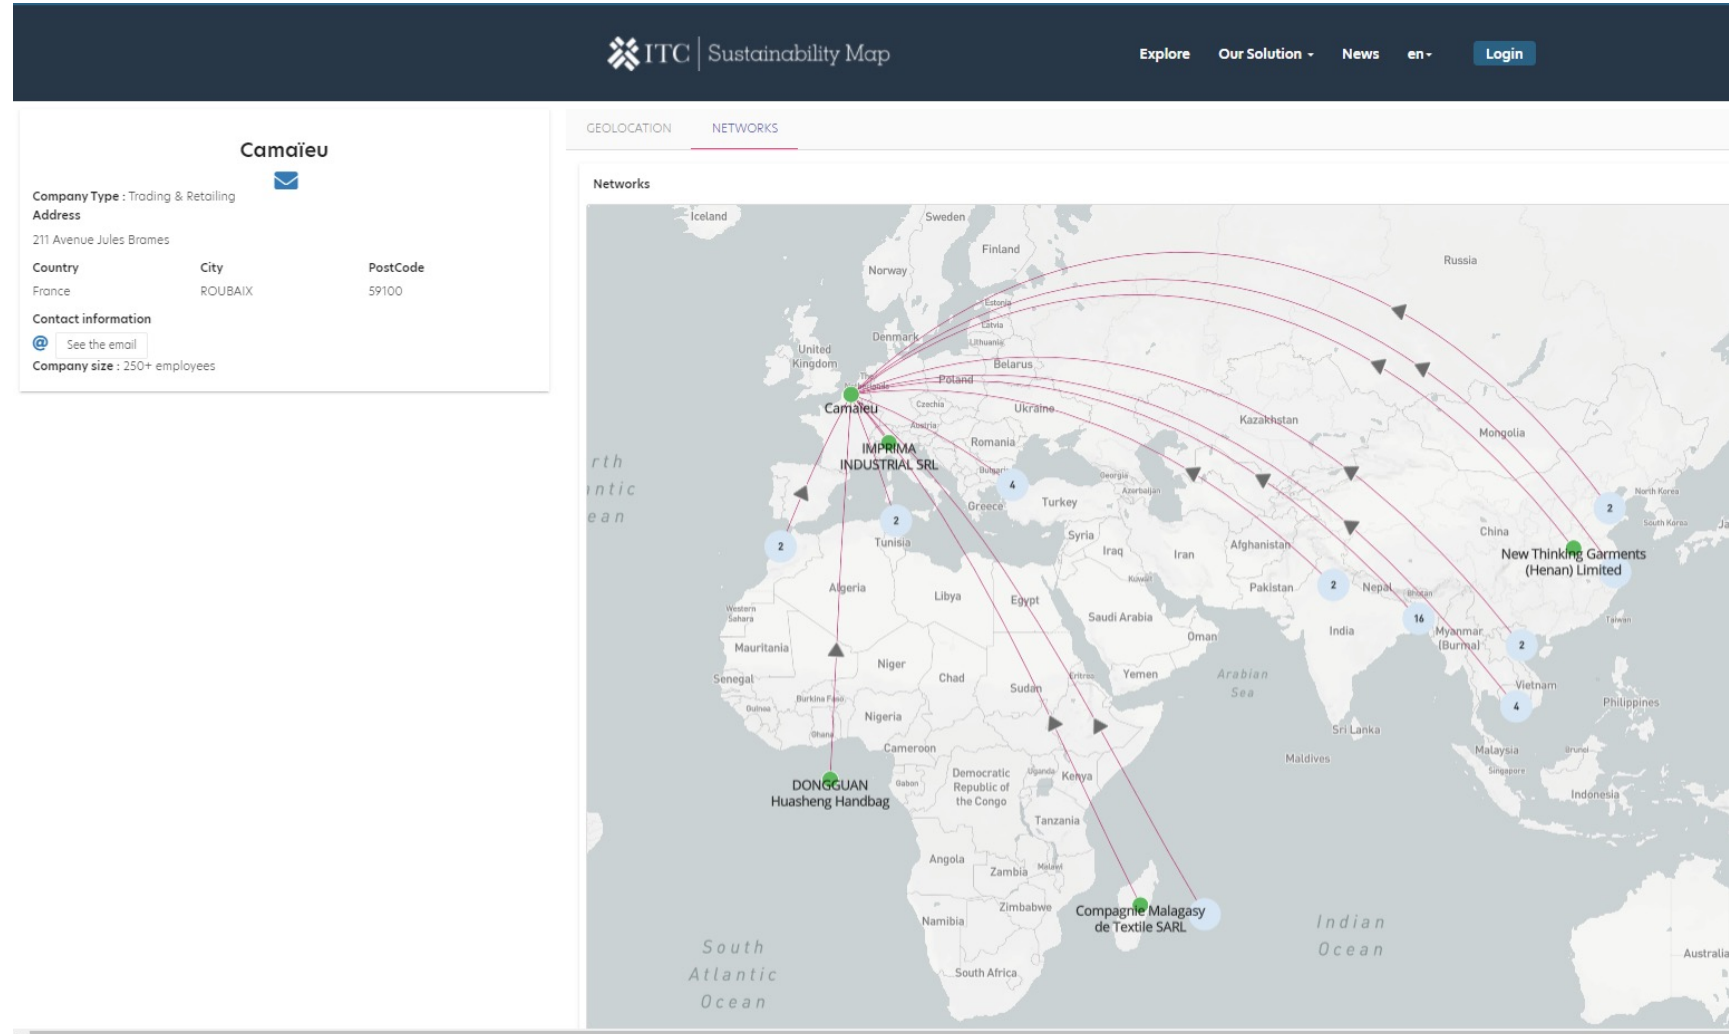

Having all vertical setups as a full composite knit project situated in a single 18 acre premise, it is the country's one of the few elite private sector business groups, which not only serves the international buyers with the height of professionalism but also contributes in terms of wealth, welfare and eco-friendliness to its homeland. One of the top tax payers in the country, knit Concern is now employing about 8000 people as well.

The vision of knit Concern Group is to emerge as a premier manufacturer and exporter of knit wear in the world market.

The board mission of knit Concern Group is to private its customers the best possible satisfaction and value for their money facilitating them with one-stop knitwear sourcing services.
