Traceability & Transparency

Please select the specific area/s of the action

Research and Development of Innovative Solutions

Awareness and Education

Collaborative Initiatives

Scope of the action, including a description of the value chain processes that are covered

Objective (max 200 words): Compliance with sustainability requirements along the value chain

Commitments (max 200 words): To invest in technology to reduce the water consumption, and to treat our effluents. To reduce or reuse our waste

Value Chain Scope: The scope is sustainable raw materials and other less pollutant supplies

Timeframe and/or milestones for the action

Publication of our first Sustainability Report according to the GRI Standards, in august 2022.
Setting dates for the next 15 years to accomplish our goals

Reference instruments and sources used

GRI
Creditex Sustainability Comitee
Suppliers

Expected benefits and impact for the stakeholders involved

Enhanced visibility of compliance with sustainability requirements by industry actors/partners along the entire value chain

Enhanced traceability of the social/environmental/ethical attributes of product(s)/materials along the value chain; for example, for origin, quality, sustainability performance, and compliance with health and safety requirements for consumers and workers

Stakeholders involved

Business and industry associations

Investors/shareholders

Workers and trade unions

Key performance indicators for the action

- . Implementation of blockchain
- . Investing in new technooogy to reduce the use of water and energy
- . Involving in social inittatives, helping the creation of workplaces for women in circular economy projects

Good practices

We have good labour practices (WRAP), secure commerce practices (BASC and OEA), quality assurance (ISO 9001), ecological certifications (OEKOTEX and GOETS)

How has this UNECE-UN/CEFACT Call to Action contributed to strategic engagement and/or public awareness in support of your commitment?

UNECE reinforces that traceability is only achievable through collaborative action of all the stakeholders
