**Type of action**

Traceability & Transparency

**Please select the specific area/s of the action**

Collaborative Initiatives

Business Management Systems or Instruments

### Scope of the action, including a description of the value chain processes that are covered

Objective (max 200 words): Flat6Labs portfolio startups in the garment and footwear industries to implement a traceability and transparency framework to ensure that their inputs are sustainably sourced.

Commitments (max 200 words): Flat6Labs will ensure its startups in the garment and footwear industries have a suitability pledge before deploying funds.

Value Chain Scope: ..

### Timeframe and/or milestones for the action

Starting with our new fund Africa Seed Fund, Flat6Labs will work on coordinating with our selected startups in adapting a sustainability framework to follow.

### Reference instruments and sources used

Sustainability Index, Garments, ESG finance

### Expected benefits and impact for the stakeholders involved

Enhanced visibility of compliance with sustainability requirements by industry actors/partners along the entire value chain

Enhanced traceability of the social/environmental/ethical attributes of product(s)/materials along the value chain; for example, for origin, quality, sustainability performance, and compliance with health and safety requirements for consumers and workers

A measurable impact on sustainability in value chains over time, eventually verified through life-cycle assessments and/or sustainability certifications

### Stakeholders involved

Intergovernmental organizations

Investors/shareholders

### Key performance indicators for the action

Any startup in the garments and footwear industry receiving investments from Flat6Labs will have to submit a sustainability pledge before receiving the investment.
