Type of initiative  
Private

Description of action
After completing the full implementation of Globatrace's functionalities as per roadmap, Globatrace will become a multi-industry standardized approach to support the Due Diligence by measuring the traceability and transparency in the Supply Chain. The platform will support the Companies in their sustainability duties such as the ESG strategy implementation and reporting, Due Diligence, substantiated Claims, Circularity and Digital Product Passport.
Type of action
- Traceability & Transparency

Please select the specific area/s of the action
- Norms and standards
- Awareness and Education
- Collaborative Initiatives
- Business Management Systems or Instruments

Scope of the action, including a description of the value chain processes that are covered
Objective (max 200 words): Globatrace as new standard for Traceability and Transparency to implement the Due Diligence and supports ESG reporting and Circularity.

Commitments (max 200 words): Complete the Globatrace full scope functions’ implementation and expand the number of Companies in the journey to have a more sustainable business thanks to Globatrace platform (tool and methodology).

Value Chain Scope: from Raw Material origin to end Consumer and Circularity

Timeframe and/or milestones for the action
- end 2023 Globatrace - full scope activation
- end 2024 - market extension

Reference instruments and sources used

Expected benefits and impact for the stakeholders involved
- Enhanced visibility of compliance with sustainability requirements by industry actors/partners along the entire value chain
- Enhanced traceability of the social/environmental/ethical attributes of product(s)/materials along the value chain; for example, for origin, quality, sustainability performance, and compliance with health and safety requirements for consumers and workers
- A measurable impact on sustainability in value chains over time, eventually verified through life-cycle assessments and/or sustainability certifications
- Enhanced environmental and socially responsible consumption and production, and circularity of the value chain, that may be relevant to and inspire other countries and industry actors/partners
- Management of reputational risk for manufacturers, brands and retailers who are selling the products concerned
Stakeholders involved

- Business and industry associations
- Consumers and consumer associations

Key performance indicators for the action under definition

How has this UNECE-UN/CEFACT Call to Action contributed to strategic engagement and/or public awareness in support of your commitment?

The UNCE-UN/CEFACT Call to Action is providing an example, a pilot how a Traceability and Transparency approach should be defined. Globatrace takes from this approach and offer a business scale methodology and tools for the industries in multisectors (textile, leather, metals, minerals, jewels, food, pharma, real estate, etc.).
